Forex Trading

Forex traders (foreign exchange traders) anticipate changes in currency prices and take trading positions in currency pairs on the foreign exchange market to profit from a change in currency demand. They can execute trades for financial institutions, on behalf of clients, or as individual investors.

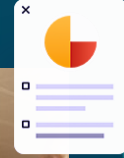

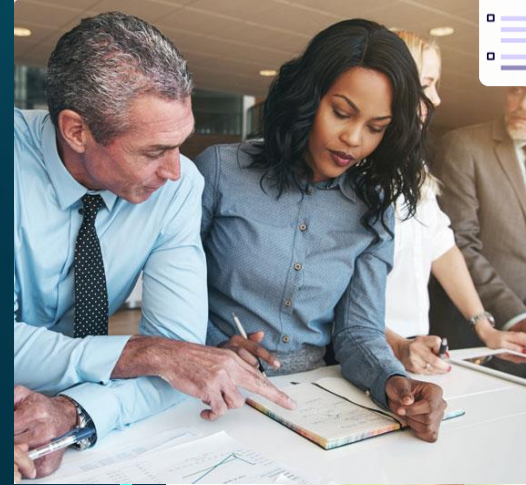

Forex trading may make you rich if you are a hedge fund with deep pockets or an unusually skilled currency trader. But for the average retail trader, rather than being an easy road to riches, forex trading can be a rocky highway to enormous losses and potential penury.

Forex trading is exchanging one currency for another to **profit** from the trade.
